In addition, you may **NOT** consult with anyone (except me) when you write your paper explaining your problem(s).

*“Mystical explanations are considered deep. The truth is that they are not even superficial.”* — Friedrich Nietzsche

*“Men are apt to mistake the strength of their feeling for the strength of their argument. The heated mind resents the chill touch and relentless scrutiny of logic.”* — William Gladstone

Some justifications will only require citing some result (proposition, theorem, logic rule, etc.) but others will require that you make a complete RAA argument.
